

Feynman Learning Technique Template

Topic

The topic you want to learn goes here.

What You Know

Explain the concept in a simple language without any jargon.

Gaps in Your Knowledge

Write down the things that are confusing to you in this section.

Restudy

Go back to study materials, supplement it. Look up definitions. Define terms. Go back to the *What You Know* section and explain the things that were confusing in simple terms.

Story

Organize your notes into a story that you can tell from beginning to end. Read it out loud. If the explanation sounds confusing at any point, go back to the identifying the gaps step. Keep iterating until you have a clear story that you can tell others.

Share It

Present your material, answer questions and revise your story.
